

## M1 Kliniken AG continues successful development in Q4 2021

- **Average daily sales in November 2021 in the German practice network again at record level**
- **All specialist centres open**
- **With four more openings in Germany and Australia, M1 will operate a total of 47 specialty centres by year-end 2021**

Berlin, 3.12.2021 - M1 Kliniken AG (ISIN: DE000A0STSQ8) can look back on another successful month. After a peak value of average daily sales was achieved in October 2021 in the German practice network, this value was exceeded again in November 2021.

Currently, all M1 specialist centres are open. The resolutions of Germany's Prime Minister's Conference yesterday also do not create any further restrictions for M1. At the same time, M1 clearly focuses on safety. All employees undergo a daily Corona test routine. From Dec. 6, 2021, a 3G regulation will also be implemented for patients.

Four more specialist centres are to open in December 2021. With locations in Aachen, Potsdam and Würzburg the number of German specialist centres rises to 34. The third specialist centre in Australia, Brisbane, is scheduled to open before Christmas. The next target of 50 specialist centres is expected to be reached in the first quarter of 2022.

## About M1 Kliniken AG

M1 Kliniken AG is the leading provider of beauty medical health services in Germany. In the aesthetic and surgical area, the group of companies offers products and services with the highest quality standards. Under the "M1 Med Beauty" brand, beauty medical treatments are currently offered at more than 40 specialist centres. In this context, the M1 Schlossklinik for plastic and aesthetic surgery in Berlin, with six operating theatres and 35 beds, is one of the largest and most modern facilities of its kind in Europe. Since the end of 2018, M1 has been pushing ahead with internationalisation and is currently also active in Austria, Switzerland, the Netherlands, England, Croatia and Australia. With its investment in HAEMATO AG, M1 Kliniken AG is also in a position to exploit sales and earnings potential of the treatment products in the medical-aesthetic field.
