Berlin, 22.03.2018 – On growth track with top-class aesthetic medicine: M1 Kliniken AG (ISIN: DE000A0STSQ8), the leading private provider of health services in the field of beauty medicine in Germany, has again significantly increased its sales and profits in 2017. According to unaudited figures, sales increased by 31.1% from EUR 36.0 million in 2016 to EUR 47.2 million in the previous year. The result from ordinary activities (EBT) rose by 36.4% from EUR 5.5 million in 2016 to EUR 7.4 million.

The M1 Group's growth driver is "M1 Med Beauty", the leading brand for aesthetic and plastic treatments in Germany. In 2017, the number of specialist centres in Germany increased by more than 50% from 11 to 17. The number of treatments also increased significantly from 100,000 to over 150,000. Five specialist centres – Wiesbaden, Münster, Berlin II and III and Mannheim – were opened in the fourth quarter alone. M1 has thus already created the basis for further sales and earnings growth in the current year. In addition, a second location was opened in Munich in the first weeks of 2018, and larger premises were moved into in Frankfurt. The group now operates a Germany-wide network of 19 specialist centres for beauty treatments and, with the Schlossklinik in Berlin the largest and most modern specialist clinic for plastic and aesthetic medicine in Europe.

"In 2017, we again succeeded in significantly expanding our capacities and at the same time growing profitably. We intend to continue along this path in the coming years. The potential for this is there", says Patrick Brenske. "Our specialisation is the basis for the highest quality, and we are the first in Germany to implement this consistently and successfully within the field of beauty medicine." In the further course of 2018, the M1 Group plans to open numerous new locations and begin its international expansion. In addition, the company sees great market potential in other areas of aesthetic and plastic medicine. Accordingly, the range of services offered by the specialist centres is to be expanded.
